PROJECT MANAGERS ANNUAL ADDRESS

Valeriia Granovska,
Head of partnership projects

In 2023, we continued the implementation of the comprehensive **project "Ukraine War Help Center,"** which was launched in February 2022. Our efforts were focused on equipping medical facilities and hospitals with professional rehabilitation equipment and tools to facilitate the fastest possible recovery of patients.

One of our most unpredictable and challenging projects was providing assistance to the communities suffering from the consequences of the Kakhovka dam explosion. June posed significant difficulties for our team as urgent help was needed. The water level in the Kherson region was rising every hour, flooding more territories. We were able to provide 1.8 million UAH in necessary assistance to the communities of the Kherson region and other affected areas.

We were also actively **developing a new Fund project, "Help to Family-Type Children's Homes".** Over the year, we provided support totaling approximately 1.1 million UAH to 50 families. Additionally, we continued supporting our young recipients—children with various severe diseases and disorders, such as cerebral palsy, autism, deafness, and oncology.

These children and their families require support more than ever, having endured the hardships of two wars. Today, our fund's objective is to respond to arising challenges efficiently.

We are grateful to our true partners: **the dobro.ua platform, the Fishka platform, the EasyPay payment service, the financial company City24, JSC "Ukrposhta," and others.** We are also eternally grateful to our friends and donors for supporting our projects on various sites and platforms.

Our plan for 2024 is to face whatever challenges come our way.

Vladyslava Andrushchenko,
Head of grant projects

2023 was a year full of challenges and achievements.

We focused our attention on **improving medical care and rehabilitation for those injured by shelling.** We implemented dozens of medical projects, with an annual budget exceeding **11 million UAH!** This included modern rehabilitation and medical equipment, medicines, consumables, organization of educational courses for doctors, etc.

Thanks to our partners, donors, and benefactors, we have already taken a significant step in enhancing the rehabilitation process in Ukraine, for which we are deeply grateful! However, the need remains pressing, and we urge everyone to join this crucial mission.

Together, we can equip **our hospitals and doctors with the necessary resources to provide effective aid and reintegrate more injured individuals, leading to profound social impacts.**

Our goal is to offer as many people as possible access to high-quality medical services, helping them regain mobility and return to a full and active life. This year, brought us fruitful cooperation with organizations such as **UNDP (with the support from the governments of the Republic of Korea and Germany), GlobalGiving, HIA, etc.**

An important milestone in our organization's development was the **implementation of a new internal project monitoring system.** In 2023, we developed a mechanism for efficiently evaluating and analyzing our work to continually improve the quality of our projects and achieve maximum impact.

These are challenging times for our country, but we believe that Ukrainian society is laying the foundation for a new future, and we are all part of this process. This is a time of transformation and change, and we are convinced **we can overcome all hardships.**

Thank you all for your support and cooperation!

Our plan for 2024 is to face whatever challenges come our way.

2023 was a year full of challenges and achievements.

MAIN PROJECTS OF 2023

Helping on the
way to victory

"UKRAINE WAR HELP CENTER"

PROGRAM

After the beginning of the full-scale war of Russia against Ukraine, we created a separate response program — **"Ukraine War Help Center"**, which operates in **four main directions:**

Assistance to internally displaced families living in shelters, resolution of urgent humanitarian issues in front-line cities and affected communities, assistance to Points of Invincibility;

Supply of first necessities, tactical and protective equipment for the Defence Forces and units of territorial defense;

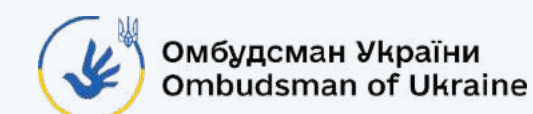

Ensuring and supporting the work of medical institutions throughout the territory of Ukraine;

Assistance to Ukrainian charities and public organizations actively involved in aid projects.

As part of the program, we cooperate with local and district authorities, representatives of regional military administrations, territorial communities, and NGOs. The main recipients of the program are Ukrainian citizens who suffered as a result of military aggression and were forced to change their place of residence, people who were injured because of missile attacks, our defenders, and emergency services personnel (doctors, firefighters, rescuers, etc.).

Within the program, we also cooperate with:

RESULTS OF THE "UKRAINE WAR HELP CENTER" PROGRAM

17

hospitals received new medical equipment and consumables:

49 units of specialized equipment were transferred

16080 consumables have been transferred

125

pieces of equipment were handed over to the Security and Defense Forces of Ukraine

13

charities and public organizations received financial support from us

≈ 4000

internally displaced persons living in shelters received assistance: more than **100 units of critical equipment, household appliances and furniture were delivered.**

10,5 TONS

of food were donated **to feed animals in zoos**

25,832,006 UAH

PARTNERSHIP WITH DOBRO.UA AND GLOBALGIVING

DOBRO UA (Ukraine)

Charity platform dobro.ua remains a loyal friend and partner of our foundation. This year marked yet another fruitful period of collaboration.

In 2023, we successfully implemented projects totaling **10.5 million UAH**, specifically:

- We provided **11 medical facilities** across Ukraine, specializing in various fields, with necessary help totaling **7 million UAH**.
- **1,150,000 UAH** aimed at supporting internally displaced persons.
- In response to the emergency in the Kherson region following the Kakhovka dam disaster, we allocated **922,055 UAH** for assistance.
- We spent **686,365 UAH** to support critically ill children and family-type children's homes.
- Throughout the year, we also provided food for animals at the Kharkiv and Mykolayiv zoos, amounting to **624,894 UAH**.

10.5 M UAH

the total budget of projects implemented in collaboration with the charity platform **dobro.ua**

GLOBAL GIVING (USA)

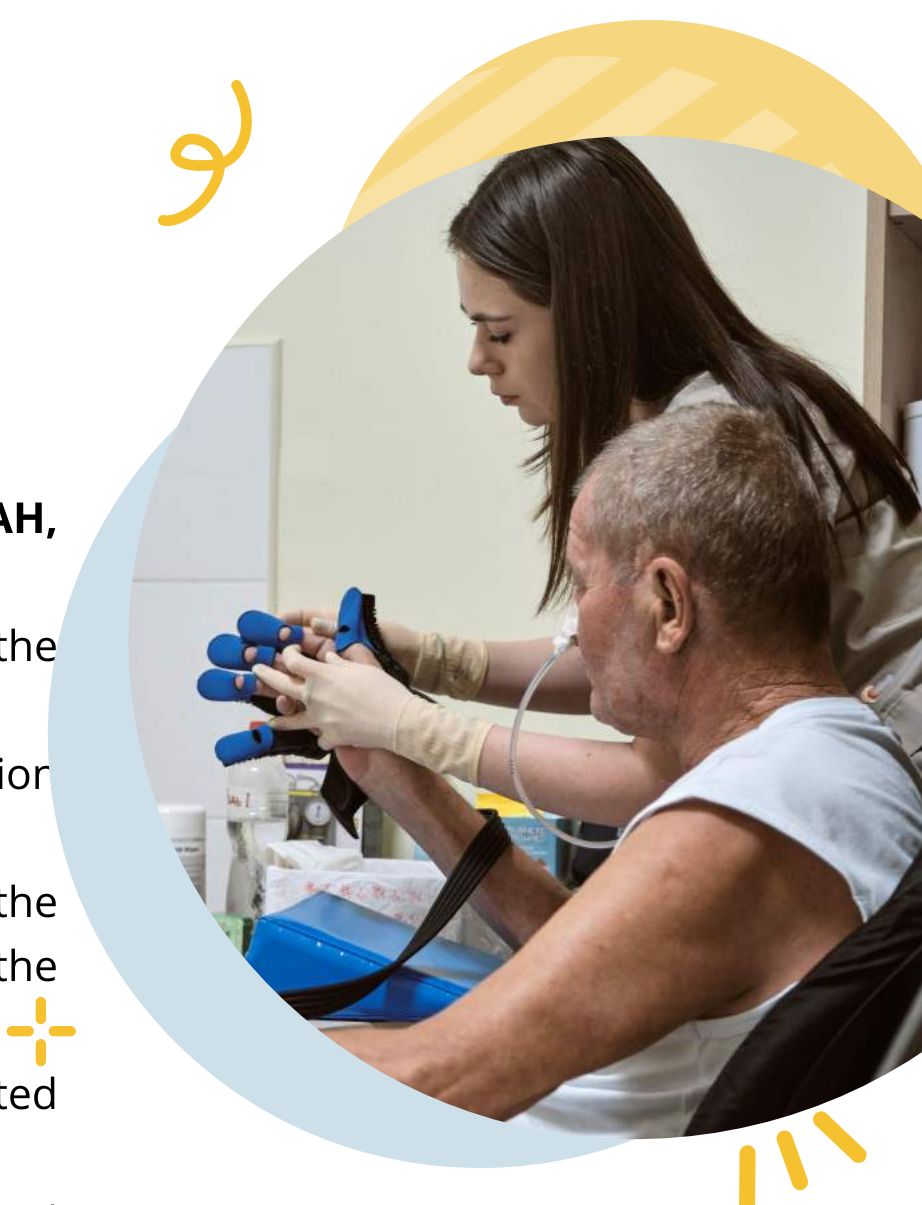

GlobalGiving is a major partner of Ukraine.

Together, in 2023, we implemented projects worth **4,000,000 UAH**, including:

- **1 500 000 UAH** allocated for rehabilitation equipment for patients at the Regional Clinical Center of Neurosurgery and Neurology in Uzhhorod.
- **≈ 700 000 UAH** spent on emergency aid projects following the explosion at the Kakhovka dam.
- **105 000 UAH** used to support 4 family-type children's homes from the Kherson Region, caring for 31 children and assisting them through the winter.
- **≈ 1 500 000 UAH** dedicated to supporting families with children affected by the consequences of war, ensuring their basic needs are met.
- **≈ 200 000 UAH** spent on medicines and consumables to support several medical institutions.

DRONES FOR DEFENSE FORCES TOGETHER WITH CITY 24

"City24" company has been our steadfast partner for over a decade, and together we have successfully implemented significant projects. Our joint initiative, **"Drones for the Defense Forces"**, which began in November 2022, continued throughout 2023.

This year, we provided **24 reconnaissance drones** of various types to fulfill the needs of military units within the **Ministry of Defense of Ukraine, the National Guard of Ukraine, and the National Police.**

The drone models included:

- DJI Mavic 3: **21 units**
- AUTEL EVO II Dual Enterprise Rugged Bundle 640T: **1 unit**
- DJI Mavic 3T Thermal: **1 unit**
- FOXEER AURA 10 with repeater: **1 unit**

Additionally, we provided **2 units of DJI Mavic 3 Pro** drones specifically for the **State Emergency Service** to aid after the Kakhovka dam explosion.

In modern warfare, drones fulfill a wide array of critical functions such as reconnaissance, monitoring, communication support, threat detection, data collection for analysis, and minimizing risks to military personnel.

"We extend our heartfelt gratitude to our partners at City24 and all the generous individuals who supported this project. The 'Drones for the Defense Forces' initiative holds immense importance. What began as a targeted effort to procure 10 drones has evolved into a systematic approach to the regular purchase and transfer of "birds".

Vadym Khadzhlyohlov,
"Social Projects Center of Future" Chairman
of the Board

***In 2024, the "Drones for the Defense Forces" project will expand to include not only drones but also radio-electronic protection means and charging stations.**

JOINT PROJECTS WITH EASY PAY

We extend our sincere gratitude to our partners, EasyPay, for our fruitful collaboration!

At the outset of 2023, in response to the severe power system shelling and resulting blackouts across the country, we swiftly provided two frontline hospitals with **robust generators** totaling **328,129 UAH**. This ensured essential backup power during critical times.

In June 2023, the russian occupation forces deliberately detonated the dam at the Kakhovka HPP, leading to a devastating humanitarian and ecological crisis. In partnership with EasyPay, we promptly **delivered vital equipment to mitigate the aftermath in the Kherson region, amounting to 259,050 UAH**. This support was crucial in minimizing casualties and preventing further destruction.

By October, we initiated a new project to aid women defenders through the **"Thanks that Treats"** initiative. We procured and donated **gynecological equipment**, specifically a **hysteroscopy pump** valued at **540,000 UAH**, to the Lviv hospital named after Yu. Lypa.

Throughout the year, we also launched projects to supply hospitals with essential medications for providing primary care to those affected by the war.

1,326,280 UAH

GRANT PROJECT

SUPPORTED BY UNDP

In 2023, we successfully implemented **the grant project titled "Physiotherapy Equipment for the Rehabilitation of War Victims."** This initiative focused on supporting the Regional Clinical Center of Neurosurgery and Neurology in Uzhhorod, which provides essential rehabilitation services to individuals impacted by the consequences of war in Ukraine.

Specifically, the following devices were delivered:

- **Physioled Therma**, a diathermal therapy device that enhances the body's natural response to pathology and accelerates recovery processes;
- **Physioled Onda**, a shock wave therapy device used for treating musculoskeletal disorders and promoting tissue biostimulation.

The comprehensive rehabilitation facilitated by these physiotherapeutic devices helps **to increase its effectiveness by 30-50%** and reduce treatment duration by nearly half.

Additionally, **15 doctors from the Center's multidisciplinary rehabilitation team underwent extensive training.** The training encompassed courses on electromyography and ultrasound examination of the musculoskeletal system.

Approximately 30-40% of the Center's patients require electromyographic examinations and 60% benefit from ultrasound assessments.

1,410,000 UAH

the total budget of this project

"We are immensely grateful for the opportunity to learn and grow professionally. These courses are invaluable, enhancing our capability to provide better care and ongoing treatment for those affected by the consequences of war in Ukraine."

Dmytro Hryhorenko, Doctor of Physical and Rehabilitation Medicine

This project is being implemented with the support of UNDP as part of the 'Support for the Rehabilitation of People with Disabilities Caused by War' project with financial assistance from the governments of the Republic of Korea and Germany.

SOCIAL
PROJECTS
CENTER
OF FUTURE

DESCRIPTION OF OTHER GRANT PROJECTS

In 2023, we implemented several more grant projects, namely:

Implemented with the support of the IBF "Alliance of Public Health" and Christian Aid.

"Access to quality medicine for residents of the Kramatorsk community and nearby settlements of the Donetsk region", within the framework of which we handed **over 11,800 blood test tubes and 1,200 urological catheters to the Kramatorsk hospital.**

Thanks to this project **almost 1,500 people** had the opportunity to take a blood test for free, and **over 1,200 people received free catheterization services.**

73,985 UAH

total budget of the project

Implemented with the support of HIA.

Improvement of living conditions for **88 internally displaced persons** in the **"Rovesnyk" shelter**, located in the Lviv region, where **2 large washing machines and 5 sofas** were installed.

Thanks to this project, shelter residents now can regularly wash clothes, bed linen, towels, etc., which is critically important for maintaining cleanliness and hygiene when a large number of people live together. And also a comfortable space has been created for their leisure time.

106,000 UAH

total budget of the project

Implemented with the support of the IBF "Alliance of Public Health", Church of Sweden and Christian Aid.

"Provision of the Kramatorsk Hospital: a way to improve the health of the residents of Donetsk region", within which a semi-automatic biochemical analyzer and a dispenser were handed over to the Kramatorsk Hospital.

Thanks to the implementation of the project, about **2,500-3,000 hospital patients** will be able to undergo a biochemical analysis for free every month. This is about **100 various biochemical analyses per day, 3,000 per month, 36,000 per year.**

125,990 UAH

total budget of the project

MEDICAL PROJECTS OF THE FUND IN 2023

In 2023, we implemented several medical initiatives aimed at supporting healthcare institutions that provide emergency medical care, as well as treatment and rehabilitation of people injured as a result of hostilities. In addition, we supported children's hospitals that provide medical care to children with cancer, helped hospitals with their current needs, which are important for the functioning of medical facilities.

We financed the medical humanitarian mission of FRIDA Ukraine to the Kherson region immediately after the disaster at the Kakhovka dam and also organized educational courses for doctors.

13

medical facilities received medical equipment;

11

medical institutions received assistance in the form of medicines, consumables and medical goods;

2

medical institutions received generators, which were critically important during constant blackouts;

1

the mission of the FRIDA Ukraine team to the Kherson region, during which

≈520 consultations were provided;

30 electrocardiograms were performed;

47 ultrasound examinations were done;

15

doctors underwent comprehensive training in electromyography and ultrasound examination of the musculoskeletal system.

11,5 M UAH

the total budget of medical projects in 2023

Every human life is priceless, and our goal is to improve the quality of medical and rehabilitation services for as many patients as possible. We strive for every person to be able to restore health and lost functions, to return to an active and independent lifestyle. Our goal is to make high-quality medical care accessible to everyone who needs it, especially those affected by the consequences of the war.

PERFORMANCE INDICATORS OF MEDICAL PROJECTS

IN 2023

Based on the internal monitoring system of our medical projects, a survey was conducted among employees of medical institutions that received assistance.

Out of 100% of respondents, we received the following data:

67%

noted that the provision of medical services has become safer and less traumatic for patients.

75%

of respondents believe that the work of medical staff has significantly eased.

64%

stated that the number of patients receiving medical services has increased.

71%

reported that patients now have access to services that were previously unavailable.

36%

testified that the time taken for patient treatment has decreased.

KAKHOVKA DAM DESTRUCTION.

EMERGENCY RESPONSE PROGRAM

On June 6, 2023, the russian occupation troops destroyed the Kakhovka HPP dam.

Our foundation's team immediately joined the Coordination Headquarters led by the Ministry of Reintegration. We participated in online meetings with district leaders and the head of the military-civilian administration of the Kherson region to coordinate efforts in providing assistance to the residents of the Kherson, Dnipropetrovsk, and Zaporizhzhia regions. We reviewed the strategic plan for addressing urgent problems, providing humanitarian aid, and necessary equipment for disaster relief, and assisted in implementing this plan.

As a result, we transferred assistance totaling 1,849,055 UAH, which includes:

- **10 pumps and 685 meters of hoses for pumping out water, 3 chainsaws;**
- **2 drones** for the needs of the State Emergency Service, ensuring the evacuation of people from flooded areas of the Kherson region;
- **Over 1300 units of medicines** for the normalization of water-salt balance disorders and the treatment of intestinal infections;
- Diapers for children and elderly people with limited mobility;

1,849,055 UAH

total budget of the project

- **47 units of household appliances;**
- **40 sets of mattresses, pillows, and towels, and more than 200 units** of hygiene products and household chemicals for the needs of 7 places of compact accommodation for evacuees (about 500 people);
- **2 Aquaphor Crystal NA filters** for cleaning drinking water.

Within this project, we would like to express our sincere gratitude to our partners, who quickly and efficiently provided us with valuable support.

HELP TO FAMILY-TYPE CHILDREN'S HOMES

AT THE BEGINNING OF 2023, WE LAUNCHED A NEW PROGRAM TO SUPPORT FAMILY-TYPE CHILDREN'S HOMES*.

The program focuses on four main areas:

Ensuring Proper Living Conditions:

Providing household goods, household appliances, furniture, etc.

Supporting Educational Process:

Supplying educational materials, school supplies, laptops, etc.

Meeting Emergency Needs:

Offering generators, charging stations, water purification systems, food, etc.

Ensuring Access to Medical Care:

Covering costs for treatment, pharmaceutical products, etc.

The program "Help to Family-Type Children's Homes" was created in response to the challenging circumstances these families have faced since February 24, 2022. It aims to provide effective assistance to families in all war-affected zones, regardless of their place of residence.

As part of this aid program, we collaborate with the Ministry of Social Policy and local child services.

***Family-type children's homes** are separate families created at the request of a spouse or an individual, which accept at least 5 orphans or children deprived of parental care for upbringing and cohabitation. In other words, it is a large adopted family.

RESULTS OF THE PROGRAM "HELP TO FAMILY-TYPE CHILDREN'S HOMES" IN 2023

In 2023, we provided assistance to 51 family-type children's homes for a total amount of about 1.1 million UAH.

408

OUR PARTNERSHIP WITH UKRPOSHTA

In cooperation with JSC "Ukrposhta" in 2023, we implemented projects worth **441,614 UAH** to support the Defense Forces of Ukraine and to provide basic necessities and food to internally displaced persons and people affected by the war.

441,614 UAH

the total budget of our joint projects in 2023

It's worth noting the active collaboration with Ukrposhta in the Chernihiv and Sumy regions. Together, we have repeatedly procured necessary equipment such as video surveillance systems, charging stations, and other technical means to support our defense forces.

HELP FOR SERIOUSLY ILL CHILDREN

As part of the support programs for seriously ill children, we provided assistance totaling **2,724,889.91 UAH**.

25 children with hearing disorders, oncological diseases, cerebral palsy, and other diseases received necessary medicines, rehabilitation courses, hearing prosthetics, and basic necessities amounting to **917,652 UAH**.

Four charity foundations received targeted financial assistance from us totaling **1,807,237.91 UAH** for the implementation of children's treatment and rehabilitation projects.

2,724,889.91 UAH

REVIEWS ABOUT OUR MEDICAL PROJECTS

Words alone cannot fully express our gratitude for the assistance provided. The support and understanding of the importance of our work are immensely heartwarming. The equipment and training supplied have made a substantial difference to our center and particularly to our department. Thank you for being there and assisting us. We wish you prosperity, strength, and inspiration to continue helping others. We look forward to continued cooperation.

Kateryna Zinovyeva,

Head of the Department of Physical Rehabilitation Medicine at the Uzhhorod Regional Clinical Center of Neurosurgery and Neurology

The Hematology Department at the Communal Non-Commercial Enterprise "Zaporizhzhia Regional Clinical Children's Hospital" expresses sincere gratitude for your understanding and assistance to children with oncological and oncohematological conditions through the provision of medical products. For many years, we have consistently felt your support and help.

Andrii Borodin,

Head of the Hematology Department, "Zaporizhzhia Regional Clinical Children's Hospital"

For many years, we have always felt your support and help.

Thank you very much, together we will win!

The administration of the hospital extends its heartfelt thanks for the critical assistance provided, enabling us to help approximately 1,000 patients thus far, with more to come. Thank you very much, together we will win!

Andrii Apryshko,

General Director of "City Hospital No. 2," Kramatorsk City

Thank you very much for providing our hospital with instruments for performing minimally invasive interventions! Your help was truly needed. Thank you for your concern.

Khomukha Vitalii,

Head of Surgery Department, Hospital named after O. S. Luchanskyi, Kherson City

We have been cooperating with the Foundation for a long time and always receive timely help, both for specific patients and for the department in general. We sincerely appreciate your understanding of our needs and assistance.

Svitlana Shevchenko,

Head of the Oncohematology Department, Poltava City Children's Clinical Hospital

REVIEWS FROM FAMILIES WHO RECEIVED

OUR HELP IN 2023

You give us hope that we will overcome everything!

Our house was damaged during active hostilities, so we are currently rebuilding our family nest. The "Social Projects Center of Future" helps our family with essential items. You give us hope that we will overcome everything!

Anna Shatyrko,
mother of a family-type children's home

A large family from the Kherson region expresses big gratitude to the fund and all employees for their support during such a difficult time. The children can now sleep soundly, each in their own bed. I wish everyone a swift victory and good health. May the fund have strong sponsors and the strength to continue providing assistance. Thank you very much.

Kimlyk Anzhela,
mother of a family-type children's home

We thank you from the bottom of our hearts for the timely and much-needed help (bedding sets, food) for our family. An organization like yours deserves deep respect! We are proud that there are such sensitive, generous, and caring people in our country!

Olena Moskalenko,
mother of a family-type children's home

We are proud that our country has such sensitive, generous, and caring people!

We wish health, patience, and peace to all of us.

Our strong family of eleven people, two adults, and nine children, sincerely thanks the "Social Projects Center of Future" for the help provided in the form of a washing machine. We wish health, patience, and peace to everyone.

Zhanna Somova,
mother of a family-type children's home

Our family moved from Kharkiv to Transcarpathia in 2022, where we currently live. I am raising seven children. We are very grateful to the "Social Projects Center of Future" for the help (backpacks, globes, kettle, slow cooker, notebooks). It is heartening to have such people who help in difficult times.

Kurbatova Svitlana,
mother of a family-type children's home

It is heartening to have such people who help in difficult times.

REVIEWS FROM THE MILITARY

WHO RECEIVED OUR HELP

On behalf of the entire Battalion Tactical Group and our military unit, I want to extend our heartfelt gratitude to the Center for swiftly processing, acquiring, and supplying our unit's needs. Your team of professionals has provided exceptional support, offering full advisory and documentation assistance throughout. Thank you for your invaluable help. You are truly the best!

Andrii,
Serviceman of a military unit in the Kyiv Region

We sincerely thank the "Social Projects Center of Future" for its consistent financial and technical support to the units of the Armed Forces of Ukraine. Today, it is crucial for our country and for the military personnel engaged in combat missions against armed aggression to know that there are supporters like you, dedicated to our future victory! Our heartfelt appreciation to you!

**Servicemen of the 131st Battalion,
112th Territorial Defense Brigade**

Exceptional support, offering full advisory and documentation assistance throughout. Thank you for your invaluable help.

Victory belongs to Ukraine!

We express our gratitude to the foundation for its comprehensive support of our division! Your efforts are commendable. Together, we will overcome all challenges. Victory belongs to Ukraine!

Codename "Bars",
Instructor Commander of the 4th Spartan Battalion

Thank you to the foundation for your continuous, timely, and substantial support to our division! Your dedication is remarkable. Together, we are strong, and victory is assured!

Yevhen,
*Codename "Advokat",
UAV Crew Commander, 1st Presidential Brigade of Operational
Assignment of the National Guard of Ukraine*

CHAIRMAN OF THE BOARD ANNUAL ADDRESS

Vadym Khadzhiglov,
"Social Projects Center of Future"
 Chairman of the board

Dear friends, colleagues, and partners,

We have endured 2023 together, a year filled with immense challenges and trials for all Ukrainians. For the second consecutive year, our team has operated in conditions of full-scale war. This has meant constant alarms, nationwide blackouts, kamikaze drone attacks, ballistic threats, and long nights spent in shelters.

I want to extend my heartfelt gratitude to our friends and partners who, from the very first days of the war, worked tirelessly to ensure that the "Ukraine War Help Center" project reached as many people as possible, both within Ukraine and abroad.

None of us could have imagined working under such conditions. Yet, despite all the difficulties, our team managed to significantly increase the amount of aid we provided. This was made possible through your unwavering support and the generosity of our international donors.

Last year, we focused our efforts on supporting the people of Ukraine, particularly large families, and implementing programs

to improve the quality of medical rehabilitation for the wounded.

We believe that our assistance in these areas is both relevant and necessary. Over the years of working in wartime conditions, we have come to deeply understand the struggles of internally displaced families forced to leave their homes and start anew with their children in completely different circumstances. We are also acutely aware of the challenges faced by those who have lost their mobility due to injuries and must learn to live again.

I would like to express special thanks to our team for their incredible endurance and resilience. To our partners and donors, thank you for your trust and ongoing contributions, despite the extremely difficult economic situation in the country due to the ongoing war. Your support is profoundly important and continues to inspire us towards new achievements.

Together to victory!
 Glory to Ukraine!

I'd like to express special thanks to our team for their endurance, to partners and donors for their trust and contributions.

CHAIRMAN OF THE SUPERVISORY BOARD ANNUAL ADDRESS

Ievhen Gluzov,

"Social Projects Center of Future"

Chairman of the Supervisory Board

2023 marked the second year of full-scale war. It brought numerous tragic events and a significant increase in the number of injured people due to rocket fire and military actions. The destruction of civil infrastructure, the explosion of the Kakhovka hydroelectric power station, which flooded more than 60,000 houses, and the escalating demographic and social crisis have all been devastating. The main tasks of Ukrainian society remain unchanged: resisting aggression and ensuring the survival of the nation. In this situation, civil society organizations have a special mission to fulfill.

In 2023, our team developed a new strategy for medical projects aimed at improving the quality of rehabilitation for those injured by missile attacks and combat operations. Our goal is to help as many Ukrainians as possible resocialize and return to autonomous life, as we fight for the future of our country.

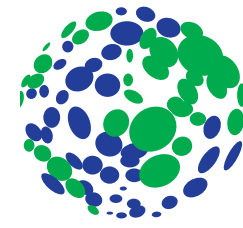

Together, we strive to resocialize and return to autonomous life as many Ukrainians as possible, fighting for the future of our country.

Our efforts have been recognized by donors and international organizations, who have provided us with targeted grants.

Additionally, we launched a new program to assist family-type children's homes, particularly those with internally displaced persons and those whose homes were destroyed. We focused on creating the necessary conditions for children's education, self-development, and acquisition of new skills.

In 2024, we plan to significantly expand our medical program, increasing the number of medical facilities that receive assistance. I am grateful to our partners who share our values and mission. I would especially like to thank our friends from Global Giving, City24, Easy Pay, Ukrposhta, and other donors and partners who stand by us.
